

Science without borders

Do you love science? do you want to know what science is done in Lublin?

We are launching an initiative, called "*forum*", where you can discuss, learn and meet the scientists making a difference among all universities in Lublin.

The goals of the forum are to network, to share the knowhow, and to have open discussions regarding biomedical sciences' topical issues.

Our first meeting will take place at the auditorium in **Collegium Maius** at Jaczewskiego str. On **September 23rd at 12 o'clock**. The topic is on the very topical issue of Coronavirus (COVID19) by no less than **Prof Krzysztof Tomasiewicz** – head of the Department of Infectious Diseases at the Medical University of Lublin.

Zapraszamy na wykład profesora Krzysztofa Tomasiewicza, Kierownika Katedry i Kliniki Chorób Zakaźnych UM w Lublinie

"COVID-19 - unusual viral disease and main challenges for science right now"

Wykład odbędzie się **23 września** w **Auli Collegium Maius**, ul. Jaczewskiego 4. Początek o **godzinie 12**.

Come and join us in September 23rd and in our future activities.

The forum needs you, whether you are graduate/postgraduate student, postdoc or scientist/teacher in any of the universities in Lublin. Forum is for everybody who loves and is enthusiastic about science. All our activities will be in English.

Please note that due to COVID19 the following regulations apply:

- 1) attendees need to wear face masks until seated. Once seated they can remove face mask.
- 2) seating arrangements: every other seat
- 3) clean your hands with disinfectant at the entrance
- 4) if you are suffering any symptoms (fever, coughing) please do not attend
- 5) keep social distancing

Questions can be sent electronically in advance (email below) or during the lecture on paper or SMS within the auditorium.

If you have any additional question(s), please contact us ([LublinSciForum\(at\)gmail.com](mailto:LublinSciForum(at)gmail.com))

Lublin Scientific Forum

(Krzysztof Józwiak, Marek Tchórzewski, Adolfo Rivero-Müller)
